African Americans launched their literature in North America during the second half of the 18th century, joining the war of words between England and its rebellious colonies with a special sense of mission. Through essays, poetry, and fiction as well as more conventional journalism, African American newspapers, inaugurated by Freedom's Journal in 1827, extolled the achievements of black people worldwide while lobbying persistently for an end to slavery.

Janet Mock, an African-American and native Hawaiian transgender activist and writer, began her career in media as a staff editor at People. In 2011, Mock decided to share her story with the world and came out as a transgender woman in a Marie Claire article. Colson Whitehead brings a bit of fantasy to historical fiction in his 2016 novel *The Underground Railroad*. Historically, the underground railroad was a network of safe houses for runaways on their journey to reaching the freed states.
