

# North-West Telecom annual report 2008

**VolgaVolga**  
Brand Identity

In spite of difficulties in the year of 2008, the NWT company has achieved positive dynamics of financial activities, has implemented a large-scale investment program and strengthen its market position.

The annual report is designed as a “Book of Secrets,” where the most important

competitive advantages are disclosed for customers, employees and shareholders. This are the business secrets and commercial secrets, allowing the North-West Telecom to be one of the most successful operators in the telecommunications market in Russia.

The report uses the images of the code locks, safes, code secret language, and other systems of access to secret information, drawn as a “notes” — a mini double-page spread.

13 of annual report 2008. Awards. IOF Medal of Achievement The IOF Medal of Achievement honours individual researchers who have significantly advanced the field of osteoporosis through their original and outstanding scientific contributions. Their feedback on the FRAX® tool and its application formed the basis of discussions based on clinical cases. Whereas FRAX® should not be considered as a diagnostic
