Historians of Southeast Asia have begun to consider the history of women and gender relatively recently, even though the complementary relationship between men and women has long been cited as a regional characteristic. In the last twenty years or so the field has witnessed some important advances, most notably in the study of the twentieth century but also in the preceding periods as well. Generalizations advanced in the past are now being refined through a number of new case studies.Â Renaissance and Revolt: Essays in the Intellectual and Social History of Early Modern France October 1990 Â French Studies. To some people studying the past has little value in the modern world. Why do you think it is important to learn the past? What will be the effect if children are not taught history? Some people give little credit and value of studying history as it is petty and in their opinion does not have any importance in the modern society. Other people, on the contrary, reckon that the past has prominent roles in understanding our modern life and taking important decisions for the future. So in this essay, I will consider both points of views and state my own assertion on the matter followed by the consequences if we do not teach history to our children. In the modern world, it cannot be denied that examining the past could be unbelievably valuable in terms of understanding of our mo
