Download Citation on ResearchGate | On Feb 1, 1980, Warren S. Martin and others published Marketing Research, Text and Cases. This article presents research that sought to understand the spread of corporate social responsibility (CSR) from the perspective of instrumental and substantive rationality. A study of multiple cases enabled a deeper understanding of this phenomenon, leading to the identification of categories of observation and the generation of proposals for further studies. The theoretical framework was built on the concepts of corporation, substantive rationality, instrumental rationality and corporate social responsibility. The cases of fourteen corporations from seven different industries were analyzed. Pre-publication REVIEW arketing Research: Text and Cases is a basic, clear, and thorough guide to the process and science of con-. As an instructor of a marketing research course, I believe this text assists the reader by presenting each of the three different types of research design (exploratory, descriptive, and causal) and then offering methods used in that particular design. The chapter on primary research is especially helpful to the novice researcher. I believe this book would be a very useful text for an undergraduate course in research or a helpful addition to an MBA course in mark...
