Questions and Activities

PRE-READING ACTIVITIES

- Show a photograph of a jade stone to the students. Discuss its value among cultures in the world. *Jade jewelry is an important tradition in Asian culture. It is thought to have properties that can improve health, fortune and general well-being and even ward off evil spirits. Jade in Korea is also believed to signify the Korean personality of politeness and determination. The Korean royal family uses jade as a symbol of authority and fortune.*
- Discuss the importance of a child's first birthday party in Korea. *A key part of the celebration is the Toljabee ceremony where the child is seated before a table on which various foods (rice, rice cakes, jujube, etc.) and objects (calligraphy set, pencil, knife, book, money, thread, needle, scissors, ruler, bow and arrow) have been placed. He/she is then encouraged to pick one or two of these. According to tradition, the first or second choice foretells the infant's future.*

POST-READING ACTIVITIES

- The jade bracelet was an important cultural artifact of this family and helped Yoon appreciate her background and ancestry. Ask students to bring to class an artifact that tells a story about their cultural background. *Make sure to explain the difference between personally significant and culturally significant. This artifact should speak to their family, their town, their beliefs, traditions, etc. Some examples might be a doll from the country their parents came from, a postcard from a grandparent, a baby shoe, a book, a recipe or a food item.*
- Make a friendship wreath. Discuss the qualities of friendship with the class. Ask the students to finish the sentence, "I like friends who..." and record their answers for everyone to see. Ask children to pair up and trace each other's hand on a piece of construction paper. Cut out the handprints. Ask students to print their name on the handprint and draw a picture or print a sentence about friendship. Glue the handprints together in a circle to make a wreath.
- Make a collage. Have children look for examples of friendship behaviours in magazines or draw their own images. Use the pictures to create a classroom collage that explains "How to Be a Good Friend." Students could also contribute slogans or mottos about friendships.
- Distribute the [Bracelet handout](#) and have students re-tell the story's lesson by illustrating a scene from the story on the handout. They may write a caption for their picture on the lines provided.
